NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2003

(Unaudited)

1. NATURE OF OPERATIONS

American Bonanza Gold Mining Corp. (the "Corporation") is a development stage mining company engaged in the identification, acquisition, exploration and development of high-grade gold properties located in the Great Basin of the American Southwest. The Corporation's properties contain defined mineral resources but the Corporation has not determined whether these properties contain mineral reserves which are economically recoverable. The recoverability of amounts capitalized is dependent upon the discovery of economically recoverable reserves, securing and maintaining title in the properties and obtaining the necessary financing to complete the exploration and development of these projects and upon the attainment of future profitable production. The amounts capitalized as deferred expenditures and property acquisition costs represent costs to date, and do not necessarily represent present or future values.

2. BASIS OF PRESENTATION

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles for interim financial reporting, and the accounting policies used are consistent with the most recent annual audited financial statements. While these financial statements reflect all normal recurring adjustments which are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and notes required by Canadian generally accepted accounting principles for complete financial statements. For further information, refer to the financial statements and notes thereto included in the Corporation's Annual Report for the year ended December 31, 2002.

3. COPPERSTONE PROPERTY

(a) The Corporation is currently engaged in exploring and developing the Copperstone gold property in La Paz County, Arizona, U.S.A. through two joint ventures as follows:

	June 30, 2003	December 31, 2002

In August 1998, the Corporation entered into an agreement (the "Arctic Joint Venture") with Arctic Precious Metals Inc. ("Arctic"), a subsidiary of Royal Oak Mines Inc., to explore and develop the Copperstone gold property. Pursuant to the Arctic Joint Venture, the Corporation acquired a 25 percent interest in the Copperstone Project for a cash payment of US\$500,000 with an option to increase its interest in the property to 80 percent by incurring US\$4,000,000 of exploration expenditures and other payments. Additionally the Corporation has agreed to make a US\$30,000 annual advance royalty payment to the property owner.

In November 1999, the Corporation entered into a purchase and sale agreement with Arctic whereby the Corporation agreed to purchase for US\$1,000,000 all of Arctic's rights, title and interest in the Copperstone Project owned by Arctic who was undergoing U.S. Bankruptcy Code Chapter 11 financial restructuring.

During 2002, court approval was received in Arctic's U.S. bankruptcy proceedings and on March 4, 2002 the Corporation completed the acquisition of the remaining 75 percent not already owned in the Copperstone property at a cost of US\$1,000,000, having received the necessary approvals from the U.S. Bankruptcy Court. Funding for this acquisition was by way of a loan of US\$1,100,000 from Brascan Financial Corporation ("Brascan") (note 5).

American Bonanza Gold Mining Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2003

(Unaudited)

3. COPPERSTONE PROPERTY (Continued)

In June 2000, the Corporation entered into an agreement (the Copperstone D-Zone Joint Venture) with Centennial Development Corporation ("CDC") for the underground exploration and extraction of mineralized materials from the D-Zone of up to 50,000 tons of mineralized material from the Copperstone property. Pursuant to the Copperstone D-Zone Joint Venture, as amended, the Corporation assumed a 55 percent interest in the Copperstone D-Zone Joint Venture for a cash payment of US\$375,000 with an option to increase its interest in the property as follows:

- (a) additional 5 percent interest if the Corporation provides all funding necessary to complete Phase One as documented in the agreement; and,
- (b) further 15 percent interest for a cash payment of US\$500,000.

During 2001, Phase One was completed and the Corporation earned the additional 5 percent interest in the Copperstone D-Zone Joint Venture for a total earned interest of 60 percent.

On February 14, 2002, the Corporation entered into an agreement with CDC whereby it would acquire the remaining 40 percent interest of the D-Zone Joint Venture not already owned for the following consideration:

- (a) assumption of a total of US\$325,000 of Copperstone related liabilities and if these liabilities exceed the estimated amount then the additional amounts will be paid equally by CDC and the Corporation. These liabilities were recorded by the Corporation as at December 31, 2000. The Corporation subsequently settled approximately US\$231,550 of the liabilities for approximately US\$87,540 and accordingly wrote down these liabilities by US\$144,010;
- (b) assumption of an estimated CDC payroll tax liability of up to US\$180,000 that may arise. If these liabilities exceed the estimated amount, then the additional amounts will be paid equally by CDC and the Corporation;
- (c) US\$345,000 payable to CDC and or its principal on or before July 31, 2002;
- (d) A net smelter royalty of three percent paid to CDC from the first 50,000 tons of mineralized material extracted from the D-Zone, subsequent to repayment pursuant to its Brascan loan agreement (note 5); and,
- (e) US\$70,000 from initial proceeds from extraction of mineralized materials from the D-Zone, following repayment pursuant to its Brascan loan agreement (note 5).

On July 26, 2002 the Corporation paid US\$345,000 to CDC in accordance with the above agreement and recorded a further US\$180,000 (Cdn.\$242,550) in accounts payable to reflect the estimated CDC payroll tax liability that may arise.

On October 17, 2002 the Corporation entered into mining services agreement with an Underground Mining Contractor ("Mining Contractor") for purposes of the development and extension of an existing underground decline in the D-Zone to establish underground infrastructure for subsequent exploration and development programs. On the basis of meeting certain pre-determined performance criteria the Mining Contractor earned a 3 percent net profits royalty interest from the D-Zone bulk sample of up to 50,000 tons of mineralized material that may be completed at some future date.

All required payments were made with respect to the Copperstone project during 2003; therefore, the claims held are in good standing until August 2004.

American Bonanza Gold Mining Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2003

(Unaudited)

4. MINERAL PROPERTIES

Other mineral properties consist of the following:

	June 30, 2003	December 31, 2002
	(Unaudited)	
	\$	\$
Pamlico	1,377,552	1,377,552
Gold Bar	322,940	322,940
	1,700,492	1,700,492

Through the acquisition of Bonanza Gold Inc. and its wholly-owned subsidiary, Bonanza Explorations Inc., in 2000 the Corporation owned, or controlled by option, a number of exploration projects in the State of Nevada, U.S.A.

The primary projects consisted of Pamlico, Golden Arrow, Gilbert, Gold Bar and Snowstorm properties. During 2001 the Corporation returned the Golden Arrow project to the property vendor and released the Snowstorm, Gilbert and other mineral claims recognizing a write-down of \$893,558 during the year.

The Pamlico and Gold Bar projects currently comprise 133 patented and unpatented claims covering approximately 10 square kilometers which are prospective for gold. An annual cash filing of US\$110 per unpatented claim is required to be paid to the Bureau of Land Management and the local counties. Annual taxes on patented claims are payable to the local authorities. All required payments were made with respect to the Pamlico and Gold Bar projects during 2003; therefore, the claims held are in good standing until August 2004.

Pamlico

The Pamlico property is located in Mineral County, 15 kilometres from Hawthorne, Nevada. Pamlico was subject to a cash payment of US\$25,000 due November 2001 which was deferred and paid in 2002. In 2002, a cash payment of US\$150,000 was made and in 2003 the final cash payment will increase to US\$675,000. The property is subject to a 1 percent net profits interest royalty after the final cash payment. Pamlico has no associated work commitments.

Gold Bar

The Gold Bar properties are located in Eureka County, 50 kilometres northwest of Eureka, Nevada. Gold Bar is subject to a 2 percent net smelter royalty capped at US\$1,000,000 on future production.

On September 27, 2002 the Corporation entered into an Option Agreement with American Nevada Gold Corp. ("American Nevada"). Under the terms of the Option Agreement, American Nevada will be granted an option to earn a 50 percent interest in both the Pamlico and Gold Bar properties (the "Properties") for the following consideration:

- (a) Cash consideration totaling \$107,500; and,
- (b) Issuance of 800,000 common shares of American Nevada with 300,000 common shares to be issued in Year 1, and 250,000 common shares to be issued in each of Year 2 and 3 and fund exploration expenditure totaling \$3,600,000 over a three-year period.

American Bonanza Gold Mining Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2003

(Unaudited)

4. MINERAL PROPERTIES (Continued)

Joint venture funding of \$480,000 has been received at June 30, 2003 of which \$355,263 was expended on exploration and land payments with \$124,737 held as an advance on exploration, with additional funding requirements as follows: Year 1- \$20,000; Year 2 - \$1,100,000 and Year 3 – \$2,000,000. American Nevada's interest will vest at a rate of Year 1- 5 percent; Year 2 – 20 percent and Year 3 – 25 percent for a cumulative interest of 50 percent.

The Corporation has retained a back-in right to increase its interest in the Properties from 50 percent to 70 percent at any time within sixty days of the third anniversary date of the Option Agreement by reimbursing American Nevada for 200 percent of its required cumulative exploration expenditures or \$7,200,000.

5. LONG-TERM DEBT

In connection with the acquisition of the remaining 75 percent interest in the Copperstone project not already owned (note 3) the Corporation received a loan of US\$1,100,000 from Brascan Financial Corporation ("Brascan"), fully secured against the assets of the Corporation (the "Brascan Loan") with interest accruing at the U.S. Base Rate and to be paid monthly.

Under the terms of the agreement with Brascan, the Brascan Loan is repayable in two equal installments of US\$550,000 on March 4, 2003 and March 4, 2004, and in addition the Corporation has agreed to cause all proceeds, net of reasonable commissions and legal and other expenses related to such transaction, of any issuance of securities of the Corporation in excess of the aggregate sum of US\$1,000,000 received by the Corporation at any time during which the loan is outstanding, to be immediately paid to Brascan in accordance with the following formula:

- (a) 10% of cumulative proceeds greater than US\$1,000,000 but less than US\$2,000,000;
- (b) 20% of cumulative proceeds equal to or greater than US\$2,000,000 but less than US\$4,000,000; and
- (c) 30% of cumulative proceeds equal to or greater than US\$4,000,000 but less than US\$6,000,000.

Furthermore, the Corporation has agreed to cause all proceeds (less direct mining and operating expenses and other direct costs of sale) of any sale or other disposition of gold or gold-bearing ores or concentrates from the Corporation's interest in the Copperstone Property, including all such sales and dispositions in the ordinary course of the Corporation's business, at any time during which any of the Brascan Loan remains outstanding, to be immediately paid to Brascan on account of such outstanding amounts.

As a result of the Corporation's public offering completed on June 10, 2002 (note 6) the Corporation paid Brascan US\$12,800 on July 2, 2002 as a partial principal repayment of the loan outstanding.

On March 4, 2003 the Corporation repaid US\$537,200 to satisfy its remaining repayment obligation in 2003 pursuant to the loan agreement.

The Corporation has also granted Brascan a non-transferable warrant to purchase up to 1,500,000 common shares of the Corporation at \$0.13 per share until March 4, 2004, with an option to extend the warrant for three additional one-year terms (note 6).

On June 10, 2002 the Corporation completed a public offering of 15,384,600 units at a price of \$0.13 per unit totaling \$2,000,000. Each unit is comprised of one common share and one transferable common share purchase warrant ("share purchase warrant"). Each share purchase warrant entitles the holder to acquire one additional common share for a period of two years until June 10, 2004 at a price of \$0.15 in the first year and \$0.17 in the second year. The share purchase warrants were listed for trading on the TSX Venture Exchange on June 11, 2002.

Canaccord Capital Corporation ("Canaccord") as agent for this offering was paid an agent fee of 8.5 percent on the aggregate gross proceeds, non-transferable agent warrants totaling 2,307,690 representing 15 percent of the number of units sold, exercisable under the same terms as the public financing, and a corporate finance fee payable through the issuance of 400,000 units. Each unit is comprised of one common share and one non-transferable warrant exercisable under the same terms as the public financing.

On October 17, 2002 the Corporation completed shares for debt settlement agreements for indebtedness totaling \$400,000 by the issuance of 2,000,000 common shares at a deemed price of \$0.20 per common share.

American Bonanza Gold Mining Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

6. SHARE CAPITAL (Continued)

On October 18, 2002 the Corporation completed a brokered and non-brokered private placement of 10,166,665 units at a price of \$0.15 per unit totaling \$1,525,000. Each unit is comprised of one common share and one non-transferable common share purchase warrant ("warrant"). Each warrant entitles the holder to acquire one additional common share for a period of two years until October 18, 2004 at a price of \$0.17.

Canaccord as agent for this offering was paid an agent fee of 7 percent on the aggregate gross proceeds of the brokered portion sold by Canaccord, non-transferable agent warrants totaling 766,666, exercisable under the same terms as the private placement, representing 10 percent of the number of units sold by Canaccord and a corporate finance fee payable through the issuance of 250,000 units. Each unit is comprised of one common share and one warrant exercisable under the same terms as the private placement.

On January 31, 2003 the Corporation completed a brokered private placement of 18,295,454 units at a price of \$0.22 per unit totaling \$4,025,000. Each unit is comprised of one common share and one half of a warrant. Each whole warrant entitles the holder to acquire one additional common share for a period of one year until January 31, 2004 at a price of \$0.28.

Canaccord as agent for this offering was paid an agent fee of 7 percent on the aggregate gross proceeds, agent warrants totaling 1,829,545 representing 10 percent of the number of units sold, exercisable under the same terms as the private placement, and a corporate finance fee payable through the issuance of 450,000 units. Each unit is comprised of one common share and one warrant exercisable under the same terms as the private placement.

Options

The Corporation has granted stock options to acquire an aggregate of 8,810,000 common shares to directors, officers and employees exercisable at between \$0.10 and \$0.31 per share at varying times up until May 9, 2008 as follows:

Number of Options	Exercise Price	Expiry Date
1,600,000	\$0.15	December 22, 2005
2,210,000	\$0.10	March 4, 2007
3,500,000	\$0.17	December 6, 2007
1,250,000	\$0.31	February 24, 2008
250,000	\$0.29	May 9, 2008
8,810,000		

The weighted average exercise price of these options is \$0.17 per share.

Warrants

The Corporation has granted share purchase warrants to acquire an aggregate of 38,804,734 common shares as follows:

American Bonanza Gold Mining Corp.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2003

(Unaudited)

6. SHARE CAPITAL (Continued)

Number of warrants	Exercise price	Expiry date
1,500,000	\$ 0.13	March 4, 2004 ⁽¹⁾
16,694,131	\$ 0.17	June 10, 2004

- (1) Brascan has an option (the "Option") to extend the term of its warrant or any unexercised portion thereof for three additional one year terms beyond the original two year Expiry Date of its warrant, which Option may be exercised by Brascan by giving notice in writing to the Corporation to that effect at any time during the 30 day period (the "Option Period") commencing prior to the then current Expiry Date of its warrant. If Brascan exercises the Option, the Corporation is required to deliver to Brascan a new warrant certificate, against surrender to the Corporation of the old warrant certificate, and obtain all necessary stock exchange approval relating to the new warrant. The new Brascan warrant shall be on that same terms and conditions as the current Brascan warrant; provided that (a) as required by the Exchange, the exercise price of the new warrant will be the weighted average of the closing price of the Corporation's common shares during the 10 day period commencing on the date that is no more than 30 days prior to the expiry date of the then current Brascan warrant, and (b) the term of the new Brascan warrant shall be one year subject to the renewal Option.

Subsequent to June 30, 2003, 141,700 share purchase warrants were exercised at \$0.17.

Shares held in escrow

At December 31, 2002, 9,000,000 common shares of the 20,000,000 common shares of the Corporation issued to acquire Bonanza Gold Inc. remained in escrow and were subject to further release for a period of up to 36 months from the date of the acquisition on December 21, 2000.

On March 14, 2003 the Corporation qualified and met the requirements for a TIER 1 issuer on the TSX Venture Exchange. As a result of the change in classification all remaining common shares held in escrow were released.

(1) Brascan Financial Corporation has an option (the "Option") to extend the term of its warrants or any unexercised portion thereof for three additional one year terms beyond the original two year Expiry Date of its warrant, which Option may be exercised by Brascan by giving notice in writing to the Corporation to that effect at any time during the 30 day period (the "Option Period") commencing prior to the then current Expiry Date of its warrant. If Brascan exercises the Option, the Corporation is required to deliver to Brascan a new warrant certificate, against surrender to the Corporation of the old warrant certificate, and obtain all necessary stock exchange approval relating to the new warrant. The new Brascan warrant shall be on that same terms and conditions as the current Brascan warrant; provided that (a) as required by the Exchange, the exercise price of the new warrant will be the weighted average of the closing price of the Corporation's common shares during the 10 day period commencing on the date that is no more than 30 days prior to the expiry date of the then current Brascan warrant, and (b) the term of the new Brascan warrant shall be one year subject to the renewal Option.

(e) Shares in Escrow

As at December 31, 2002, 9,000,000 common shares of the 20,000,000 common shares issued to acquire Bonanza Gold Inc. remained in escrow and were subject to further release for a period of up to 36 months from the date of acquisition on December 21, 2000.

On March 14, 2003 the Corporation qualified and met the requirements for a TIER 1 issuer on the TSX Venture Exchange. As a result of the change in classification all remaining common shares held in escrow were released.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the audited Consolidated Financial Statements for the year ended December 31, 2002 and the unaudited Consolidated Financial Statements for the six months ended June 30, 2003.

Description of Business

American Bonanza Gold Mining Corp. (the "Corporation") is a development stage mining company engaged in the identification, acquisition, exploration and development of high-grade gold properties primarily located in the Great Basin of the American Southwest.

The Corporation conducts its exploration and development activities independently as well as through option or earn-in arrangements. These arrangements are structured in such a way as to allow an interested party an ability to earn an interest in a project by funding exploration expenditures on the Corporation's projects over a period of time. Typically, the partner may earn up to a 50 percent interest on a vest in basis over a period of time with the Corporation retaining a back-in right to increase its interest by way of reimbursing exploration expenditures on a predetermined basis.

Results of Operations

For the six months ended June 30, 2003, the Corporation had a net loss of \$274,171 or nil per share compared with a net loss of \$122,609 or nil per share in 2002. The increase from the comparable period was primarily attributable to the increase in both general and administrative and exploration expenditures in the current period which were partially offset by foreign exchange gain of \$103,617 which was a combination of a gain on the Corporation's US dollar denominated debt combined with a loss on the Corporation's cash balance held in US dollars.

General and administrative expenditures increased from \$141,253 in the comparable period to \$221,853 which was direct result of increased personnel and consulting fees associated with the Corporation's increased activity which also contributed to \$46,780 in business development related expenditures. Public company expenses also increased from \$17,037 to \$82,698 as a direct result of increased activity by the Corporation during the period which included investor relation initiatives.

Exploration expenditures increased to \$132,993 from \$43,606 in the comparable period reflecting increased activity resulting from ongoing project evaluations. The Corporation continues to conduct project evaluations using its metallogenic explorations techniques which represent state-of-the-art tools for modern exploration in the Great Basin of the American Southwest. Exploration expenditures in the period also include all cost associated with maintaining the Corporation's exploration office in Reno, Nevada.

Financial Condition, Liquidity and Capital Resources

The Corporation's working capital as at June 30, 2003 was \$2,212,116 compared with a working capital position of \$105,622 as at December 31, 2002. The increase was primarily attributed to a private placement of 18,295,454 Common Shares, including corporate finance shares totaling 450,000 Common Shares, for net proceeds of \$3,705,710. Additionally, the Corporation received proceeds of \$546,724 from share purchase warrant exercises and a further \$94,500 from stock option exercises. The increase in working capital was attributable to proceeds from equity related transactions net of repayment of long-term debt of \$ 792,408 and development expenditures at Copperstone totaling \$1,094,069 for the period then ended.

During 2002 the Corporation entered into a loan agreement with Brascan Financial Corporation for US\$1.1 million in connection with the acquisition of the remaining 75 percent of the Copperstone project not already owned. Under the

**Supplementary Information
For the six months ended June 30, 2003**

terms of this agreement the loan is repayable in two equal installments of US\$550,000 on March 4, 2003 and March 4, 2004. On March 4, 2003 the Corporation satisfied its repayment obligation in 2003 pursuant to this loan agreement.

During 2002 the Corporation resumed underground exploration and development at the Copperstone project, and reached a significant milestone in that program during the period. The underground workings now extend from the northern end of the Open Pit over 1,800 feet to the north to intersect the southern portion of the D-Zone high grade mineralized target. Channel sampling from the underground workings returned multi-ounce assays from the southern portion of the D-Zone, confirming the grades indicated by core holes drilled from surface. These results are currently being followed up with a substantial underground core drilling program planned to convert D-Zone resources to the reserve level and to aid design of further underground workings and future stopes. The total cost of the underground program in the period was \$1,027,071 not including site maintenance and camp support for a total cumulative cost of \$1,239,093 since the program began.

The Corporation's objective at Copperstone is to convert the resources to reserves, explore to expand the resources, and develop a significant high grade underground gold mining operation to production. Exploration efforts will focus on expanding the D and C Zones and on drilling the footwall zone, which may represent a mineralized structure parallel to the Copperstone Fault – the primary host of mineralization at Copperstone.

As at June 30, 2003 the Corporation had cash of \$3,339,943 compared to \$1,630,103 for the comparable period.

In management's opinion and in view of the Corporation's current working capital position and project financing by way of the option agreement on both its Gold Bar and Pamlico projects management believes the Corporation has adequate funding for purposes of completing its planned work programs in 2003 while ensuring adequate working capital over the next 15 months.

Outlook

The business of mineral exploration and extraction involves a high degree of risk with very few properties that are explored that ultimately achieve commercial production. As present, none the Corporation's properties have a known body of commercial ore. Other risks facing the Corporation include economic risks, permitting, fluctuations in mineral prices, share price volatility and uncertainty as to its ability to complete additional financings to fund its future development and exploration work programs.

The Corporation will continue to focus the majority of its exploration and development activities in the Great Basin and the American Southwest. The Corporation will also continue to use its metallogenic explorations techniques which represent state-of-the-art tools for modern exploration in the Great Basin of the American Southwest which management views will be the catalyst for future corporate growth and achieving its stated mission of becoming a highly profitable gold producer.

As a mining company in the development stage the future liquidity of the Corporation will be affected principally by the level of exploration expenditures and by its ability to raise adequate level of capital through the equity markets. In management's opinion the Corporation's current working capital is sufficient for funding its planned development expenditures in 2003 on the Copperstone project and meeting its ongoing obligations as they become due. Additionally, the Corporation has adequate funding in place over a three year period by way of its option agreement on the Gold Bar and Pamlico projects to fund exploration expenditures on these projects.
